

Reflecting on our Inquiry Learning Journey...

1. What were you focusing on in your learning? (Big Idea, Key Concepts, Big Task)

The big idea was that that every country has a culture and every culture has it's own different traditions, celebrations and beliefs that are different to any other culture. This is what makes every culture unique. The key concepts were culture, beliefs and identity; something every culture has. So we were set a task to choose a country we find interesting, research about this country, put it into an itinerary, then present the itinerary into a documentary/ multimedia presentation.

2. What have we learnt?

We have learnt about the culture, identity, beliefs, traditions, celebrations, cuisines and clothing of the country we have selected in the task.

3. What was your process for your learning?

Firstly, we had to research about the country we had chosen, Next we had to put it into an itinerary of what a person would do if they were visiting that country, then we had to present the itinerary into a documentary/multimedia presentation.

4. Share some key facts/learning that stands for you!

South Africa's most popular sports, (the country I had chosen) are Rugby Union, cricket and soccer. Their most popular sport is Rugby Union, their second most popular sport is cricket and their third most popular sport is soccer.
